

JV Breaks Ground on Luxury Apartment Complex in North Phoenix

Amenities at the new development will include a clubhouse, pool, state-of-the-art fitness center, community room, business center and studio for yoga and Pilates.

PHOENIX – A joint venture between The Resmark Cos., Westfield and Greystar has broken ground on a 344-unit luxury apartment complex in the North Phoenix community of Desert Ridge. The new community will be located on East Deer Valley Road, west of North 56th Street.

The project is situated adjacent to major employers like the Mayo Clinic Hospital, Desert Ridge Marketplace and the JW Marriott Resort.

Amenities at the new development will include a clubhouse, pool, state-of-the-art fitness center, community room, business center and studio for yoga and Pilates. The community is scheduled for completion late next year.

Todd & Associates designed the property.

"With Westfield and Greystar, we have partners that possess considerable experience in the local market, which is an established hub for major employers and continues to grow," says Ziv Cohen, COO of Resmark Apartment Living. "The project location is ideal for young professionals and Baby Boomers seeking a residential destination with desirable on-site amenities, a convenient commute and easy walkability to retail and services."
